

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2014_AJEA_11076
Title of the Manuscript:	Effects of Sodium Azide (NaN ₃) on Seeds germination, Plantlets Growth and <i>In vitro</i> Antimalarial Activities of <i>Phyllanthus odontadenius</i> Müll Arg.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript 2014_AJEA_11076 describes the possible induction of secondary metabolites of <i>P. odontadenius</i> using sodium azide (NaN_3). The paper brings new data about the plant stress responses. Some figures need to be improved or removed. - The figure 1 must be more accurately described and interpreted in the text. -The figure 2 a,c (IC_{50}) and b,d ($1/\text{IC}_{50}$) describe the same experimental values. Therefore, the figure 2 b,d must be removed.	Thank you very much for this comments which show and see new data in this manuscript. The figures 2 b,d were removed. Thank you for that (See in the text). For the language, manuscript was read by some persons after their submission in the American Journal of Experimental Agriculture.
<u>Minor</u> REVISION comments	The language need to be corrected thoroughly and should be read by a native English speaker.	
<u>Optional/General</u> comments
