PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	sorghum cultivars will display delayed floral initiation 1. Why use here will?? Burke et al. indicate that Ethiopian 2. Check it please 3. Please less down introduction, is so long These were inbred lines resulting from crosses between 4. Change to The inbred lines were developed through crossing. B1 Late (BTx623 x NSL51071)-F2-18-1 77 a^z 87 a 113 a From Page 9 Table 4 4). Why is a^z at single place why not on other?? irrigation treatment, and Page #10, 11 at many places 5). Remove comma after treatment. Table 5, 6 102.53 bc^z *80.01 de^y 6). Why in these cases no in others?? Bars indicate 1 s.e. 7). What means by s.e (Standard Error??) Chlorophyll concentration, delayed leaf senescence, and Page # 22 8). Remove comma before and et al. 9). Should be et al. 10). Conclusion portion should be less down and give only main findings.	"will" deleted. Thanks Checked with sources and statement affirmed. Thanks Change made. Thanks. Italic superscripts "z,y or x" are just indicators of how statistical results were explained as mentioned in foot notes following each mentioned table. This is a serial comma and is grammatically correct to use "s.e." stands for standard error. Thanks It's a serial comma. Taken care of. Thanks Explanatory paragraph removed. Thanks a lot for reviewing.
