

### SDI Review Form 1.6

|                          |                                                                                            |
|--------------------------|--------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">American Journal of Experimental Agriculture</a>                               |
| Manuscript Number:       | 2014_AJEA_12375                                                                            |
| Title of the Manuscript: | RESPONSE OF MAIZE VARIETIES ( <i>Zea mays</i> ) TO BIOCHAR AMENDED SOIL IN LAFIA, NIGERIA. |
| Type of the Article      | Original Research Article                                                                  |

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

### **PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                                                                                                              | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | 1 Authors should look for some good English person to modify for them.<br>2: Authors should understand why they want to do this research.<br>3 Authors should be using some more simple method to show their results and give some explanation. | CORRECTION CARRIED OUT                                                                                                                                                        |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                                                                                                                                                 |                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    |                                                                                                                                                                                                                                                 |                                                                                                                                                                               |
