SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This reviewer recognizes a good research work, considering the importance of the theme, the impact it could have, the experimental work done and the results obtained. However, the use of English is very poor, tarnishing work. I recommend that the authors call for help in drafting the manuscript so it can better reflect the research, meet international requirements related to edition and be published.	The English language has been updated
Minor REVISION comments		
Optional/General comments
