

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2014_AJEA_12469
Title of the Manuscript:	Side effects of sublethal concentration of two Neonicotinoids; Thiamethoxam and Thiacloprid on the larval parasitoid, Bracon brevicornis (Hymenoptera: Braconidae)

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Most of the suggestions and corrections taken into consideration, but few were not given below: Abstract should be revised again according to the author guideline. It should contain the contents of the paper. Different sub-sections as "Aims, Study design, Place and Duration of study, Methodology, Results, Conclusion" should include. Besides, it should include relevant statistics results. Conclusion part after discussion should be given in a separate title and state major finding. Furthermore, according to the results of the study should be emphasized in future research to be done in conclusion part. Statistical lettering was missing in Table 1, should be added. <i>P</i> values should be italicized and capitalized, besides, expressed to 2 digits whether or not it is significant ($P=.01$ or $P=.05$) Tables should be placed inside the text. Tables should be presented as per their appearance in the text. The discussion about the tables should appear in the text before the appearance of the respective tables. Tables should be revised according to the format, as well as title and footnote of table. Double spacing should be maintained throughout the table. Journal names in reference list should be abbreviated according to the ISSN List of Title Word Abbreviations. Discussion part is still poor, should be reconsideration.	We arranged it different sub-sections Yes, we did it and we added future research to be done No significant differences in this table as indicated under the table Yes, we did Yes, we did Yes, we did We written the journal names in complete name as many paper in the American Journal of Experimental Agriculture. Yes, we did modifications
