

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2013_AJEA_7254
Title of the Manuscript:	Effects of Dietary Levels of Rice Husk Supplemented with or without Commercial Enzymes on Performance, Nutrient Retention and Gastro-intestinal Tract of Broilers

PART 2:

EDITOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Now, I have revised this manuscript. In my opinion it can be accepted, but after a major revision to improve list overall quality. 1- The title of ms should be simplified (it is included a tentative example) 2. The abstract must be rewritten. 3.-Authors must include additional information about the commercial enzymes used. 4.- Tables of results must be modified in order to reduce their number and improve its comprehension. (I totally agree with the most critical of the reviewers in this point) Please find, the attached ms with suggestion to authors. In my opinion, only if all these amendements are carefully attended by authors, the manuscript can be suitable for publication.	Corrected Corrected Corrected Authors believe that all the tables included are relevant to the work.
