Subject: RE: Request for final decision for manuscript number 2014_AJEA_10345

Now I send you the final decision for manuscript number 2014-AJEA-10345, with the attached file.

Editor's Details:

Dr. Lanzhuang Chen

Laboratory of Plant Biotechnology, Faculty of Environment and Horticulture,
Minami Kyushu University, Miyazaki, Japan

Note: Modification was done in this document ONLY to hide the email id.

Attached Part:

Comments on the concerning manuscript from Chen.

1, in author feedback, the author did not do explanation to the comments from the reviewers completely, for example, only “we do not agree”, and no following sentences.

2, there are still some mistakes in grammar in the manuscript. For example, in the revised title “**Phosphorus Fertilizer Sources and Application Time Effects on Grain Yield and Nutrient Composition of Cowpea (*Vigna unguiculata* L., Walp)**”, **Effects on should be written as affect, or “Effects**of Phosphorus Fertilizer Sources and Application Time **on** Grain Yield and Nutrient Composition of Cowpea (*Vigna unguiculata* L., Walp)”, and so on.

I think the author should rewrite seriously the manuscript according to the comments from the reviewers. At least in this status, the manuscript should not be accepted for publication.
