Subject: RE: Request for final decision for manuscript number 2013_AJEA_7526

With reference to our previous correspondence, I send my opinion concerning the manuscript entitled "Influence of Poultry Manure and NPK Fertilization on Growth, Yield and Storability of Onion (*Allium cepa* L.) grown under rain-fed conditions" - version II (2013 AJEA 7526).

In my opinion this manuscript cannot be published in AJEA in current form.

1. As I stated earlier, percentage differences between the treatments, presented in the results and discussion section, in many cases are inconsistent with the data presented in tables (e.g. line 186 (28% ?), line 191 (63%), line 262 (42-63%?)).
2. Please improve the conclusion section. Currently some of the statements are not in accordance with the results - see comments in the text attached.
3. The manuscript need technical improvement:
 - ☐ please use t·ha⁻¹ or kg·ha⁻¹ instead t/ha or kg/ha,
 - ☐ Some of the corrections are pointed in the text.

Editor's Details:

Edward Wilczewski
