SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Few references may be included for the justification of manipulation of sugars in sesame	
<u>Minor</u> REVISION comments	Extraction of sugars may be elaborated and HPLC analysis should include column used and conditions of elution, detection and quantification.	
<u>Optional/General</u> comments	Sesame is known to be possessing hypercholesterolemic effect and it was reported that its dietary fibre can be used for controlling diabetes. The non nutritive sugar stachyose and its effects on dietary glycemic effects could be highlighted
