	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	1. English should be revived by a original english speaker. 2. Abstract should show the main results. 3. For the introduction, the significance should be point out and the corresponding studies. 4. For Materials & methods, it is confusion. There should show the measurements, calculations and so on. 5. For results and discussion, there only was the simple list for the data and lack of the further analysis. Meanwhile, there wasn't statistical analysis. 6. For the conclusion, although it supported by the data, which included too much paragraph and required the discussions. 7. Authors should cite more other suitable current references especially international references.
