SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	All the in-text citations ought to appear in the references and vice versa. Many references are missing in the in-text. The results generated in this study are inadequate. The conclusion should relate to results. The author stated that the study used two-way ANOVA. However, there are no ANOVA results presented in the manuscript. How about Bonferroni? Where are the results?	
<u>Minor</u> REVISION comments	The author can improve the article by making conclusions based on results of the study.	
<u>Optional/General</u> comments	The title is about climate change but the results are based on cross-sectional weather parameters. Consider revising the title to reflect the data used.
