PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The result presentation should take care of the interaction of the treatments applied . This implies that interaction exists, individual treatments used cannot not have individual effect. The result presentation and discussion should strictly be oriented towards this fact.**	
Minor REVISION comments	Let all the linguistic mistakes be considered and corrected to improve the status of the article after being published.	
Optional/General comments	Experimental procedure should be chronologically arranged. Repetition should either be avoided or at least be reduced to bare minimum when writing the body of the paper.
