

SDI FINAL EVALUATION FORM

PART A:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	MS: 2012/AJEA/1082
Title of the Manuscript:	<i>EVALUATION OF SELECTED PHYTOCHEMICALS AND BIOACTIVE COMPONENTS IN FLUTED PUMPKIN (Telfairia Occidentalis) AND AMARANTH (Amaranthus caudatus) LEAVES</i>
Manuscript received on (Date)	
Review comment submitted (Date)	

Specific comments:	The data's are not enough for publish full length research article.
Title and abstract	Change article title. The crude extracts are used for the present study. So, remove the evaluation of some selected phytochemicals in title.
Introduction	-
Review of literature (Heading may differ in the case of review paper)	-
Materials & methods (Heading may differ in the case of review paper)	What is the concentration of DPPH? Which solvent did you use for preparation of DPPH? The authors are mentioned in fig 1 & 2 that 0.3 & 0.6 µl of crude extract concentration were used for the present study. But in materials section the authors are mentioned 1ml of the extract were used for analysis. Which one is correct? DPPH methodology is not clear <i>Telfaria occidentalis</i> – family name?
Results & discussion (Heading may differ in the case of review paper)	Discussion part is not enough. Add some points of role of phytochemicals in antioxidant activity. Discuss the previous vegetable extracts
