

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2015_AJEA_17138
Title of the Manuscript:	Evaluation of Breeding Potential of Agro-morphological Important Traits in Forty Two Aman Rice Genotypes (<i>Oryza sativa</i> L.) using D2 analysis
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Some issues of this work are not clear enough. Discussions of geographical patterns of genotypes and the origin of genotypes is not showed. Also there is a discussion about the influences of environment and genotype x environment interaction in clustering patterns that cannot be done. Other comments are made in a separate file.	In this experiment we were not studied about genotype x environment interaction. I have corrected it according to reviewer guidelines.
<u>Optional/General</u> comments
