SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The submitted manuscript is constructed properly and meets criteria of American Journal of Experimental Agriculture editorial board. It brings some data regarding to the effect of hapa on growth, survival and condition factor of <i>Clarias Gariepinus</i> fry in large volume of water. The experiment is planned correctly, based on proper methods and does not arise any ethical or content-related reservations. Statistic analyses are adequate. Results are presented carefully in very clear form. The conclusion is adequate.	Planned and executed experiment.
<u>Minor</u> REVISION comments	I recommend the rewrite the abstract. The introduction is very generic, unnoticed and should be improved. The discussion should include a discussion of the results in view of the most recent references.	Abstract modified Introduction modified and improved upon Discussion revised with recent references
<u>Optional/General</u> comments	I my opinion, the manuscript is acceptable for publication in American Journal of Experimental Agriculture after minor revision.
