PART 2:

FINAL EVALUATOR’S comments on revised paper (if any)	Authors’ response to final evaluator’s comments
In my opinion it still contains several errors that make difficult the understanding. However, in some case the English reviewer will not understand the sentence. The manuscript also seems to contain errors with the data at the tables. This information must be reviewed or better explained. All these information was pointed out at the attached file.	Thank you very much for valuable correction. All sentences/words corrected are marked with yellow colour. Some paragraphs has been modified to increase the substantial meaning/point, however I am very happy if you could still make correction to develop the paragraph modified. There are some corrections could not be done because I don’t know how to revise. It highly appreciate if you could modify to meet the requirement.
