

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

|                          |                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">American Journal of Experimental Agriculture</a>                                           |
| Manuscript Number:       | 2014_AJEA_13891                                                                                        |
| Title of the Manuscript: | Correlation between intake and feeding behavior of Holstein calves supplemented with pelleted and mash |

**PART 2:**

| FINAL EVALUATOR'S comments on revised paper (if any)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Authors' response to final evaluator's comments                                                                   |
