

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	2015_AJEA_16342
Title of the Manuscript:	Impact of Three-Different Commercial Feed on the Growth and Survival of <i>Clarias gariepinus</i> Fry in Aquaria Glass Tanks.
New Title:	Impact of Three-Different Commercial Feed on the Growth and Survival of <i>Clarias gariepinus</i> Fry in Aquaria Glass Tanks.
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
- In general, the present manuscript: "Impact of three-different commercial feed on the growth and survival of <i>Clarias gariepinus</i> fry in aquaria glass tanks" addressed to compare the growth response and survival rates of <i>C. gariepinus</i> fry fed artificially formulated fry using Artemia as control, WAS IMPROVED. On the other hand, there is still necessity of improvement, due to some mistakes and misunderstandings; - According to "General guideline for authors" – brief guidelines (http://www.sciencedomain.org/page.php?id=general-guideline-for-authors), Abstract section "it should not exceed 300 words in length". Some abbreviation, as such as, "treatment" and "specific growth rate" was cited at first use, later, you need use the abbreviation form. More "note: Use of DOI number for the full-text article is encouraged. (if available)"; - The author who identified the species is better to be described in the Title or Introduction section (and not into the final of abstract). Additionally, the year need to be provided. If the authors prefer to use the author name (Burchell) into the abstract section, the authors name need to be moved to the initial of abstract (after the use of the species name). The same way, move the "Burchell" described in the Conclusion (subsection 4. Conclusion) into the Introduction section; - More, "<i>P</i> values" is always italicized (The review of the entire manuscript is necessary); - Still, there are some spelling problems along the manuscript (The review of the entire manuscript is necessary), as such as, "Treatment T-1", "Artemia salina" is italicized; - Review of references (spelling problems or format): 4, 5, 6, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 and 21. - Still, English needs to be revised and improved.	The corrections have been effected. Thank you. References corrected to journal format
