**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>I did not understand why author compared the isolates obtained two different tao cultuvars? Temperature and media which are suitable for phytophthora spp. Are known this study was done to prove the known results it dose not add any new data to present data about this fungus.</p> <p>Light dencity may effect the sporulation but light and dark condition dose not give enough information about light effects on sporulation.</p>	
<b><u>Minor</u></b> REVISION comments	Language should be improved.	
<b><u>Optional/General</u></b> comments
