

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Annual Review & Research in Biology
Manuscript Number:	2013_ARRB_4925
Title of the Manuscript:	Spermatogenic Alterations Induced by Organophosphorus Compounds Profenofos, Chlorpyrifos and Synthetic Pyrethroid Lambada-cyhalothrin in Mice

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I have reviewed this manuscript for the third time and have seen progress made to be average in addressing some of the aspects of the ms as this reviewer feels strongly about in respect to the depth of contribution to be made. Regrettably, authors are yet to fully comply with several editorial, scientific and grammatical flaws pointed out in the ms. It does seem that they have not taken indepth appraisal of these points (in order to address them point-to-point). See comments on abstract, methodology and results/discussion.</p> <p>Authors are advised to re-write this section in accordance with standards; the results should be properly intepreted and a discussion in line with literature properly coordinated to meld well with the central theme of the manuscript. This is clearly lacking in the present format as it merely jumps from statements with no articulation and clarity of ideas. All the results obtained should be discussed in line with the literatures cited.</p>	<p>Dear editor, peer reviewer thank you in advance for your great effort</p> <p>The correction are highlighted in red colour.</p> <p>The abstract, results and discussion (were done)</p>
