SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	MS: 2012_BJAST_2698
Title of the Manuscript:	**Weighted Multicollinearity in Logistic Regression: Solution to its presence in Industrial Data?**

Comment [K1]:

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
As much as I respect the authors for using English language, which is not their 3rd or even 4th language, I still have a problem accepting the manuscript for publication as it is now. I will suggest that they get the language edited. For example, conclusion is spelt with s not t as written in this manuscript as conclution.
