

SDI Review Form 1.6

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2013 BJASt 3985
Title of the Manuscript:	Newly developed Epoxy-polyol and Epoxy-polyurethane from renewable resources

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Abstract: Make brief introduction into the topic of study before delving into the focus. Line 15: why don't you start with....This work focuses on the preliminary studies... Abbreviations in the abstract and in the entire work should be first presented in full – IR, ^1HNMR, ^{13}C NMR, DSC Standard methods should be explicitly indicated Use square brackets or the journal's referencing/citation style throughout the text as against () 48/49 – There is a need to enlist some of the fatty acid composition that mirrors other plants and their necessities for the study There should also be more lights thrown on Jatropha as a renewable resource	
<u>Minor</u> REVISION comments	Line 37 –polyurethanes have mad them viable materials...pluralise 47 –Jatropha curcas is a bush what? (ref. needed) All abbreviations used should be first used in full 111 – 15cm x 15cm 112 - - do - 113 - - do - 115 above test – make it clear 120 We reported earlier... who are the we? Name the author or authors and use proper citation or better still, one of the authors of this study, Akintayo (with proper citation) reported earlier... 132 – Figure 1 135 – Scheme 1	

SDI Review Form 1.6

	137 – However,... 142 – Scheme 2 144 – Fig 2 150 – However,.. 155 – ie should be which is or that is 159 – Figure 3 160 – Schemes 1 and 2 143 -163 – general implications should be given for those responses/results 191 – RI, SG and others, write in full 181 – make proper references to the results Tables in your discussion here also for 196 217 – Figure 4 233, 234 – harmonise key JCEPU and JCEP properly with Figure 4 References – Use proper reference style for the journal, italicize /underline journals where necessary Are there not related papers/articles in the British Journal of Applied Science? Cite at least one related paper.	
<u>Optional/General</u> comments	The study is quite novel and interesting; the use of <i>Jatropha curcas</i> as a renewable source has not been investigated so far and so, it adds to literature of knowledge.
