

SDI Review Form 1.6

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	MS: 2012/BJAST/2587
Title of the Manuscript:	Investigations on Mechanical and Dielectric Properties of NLO material: 4-methoxybenzoin.

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	1. Upon reading the manuscript, I find that there is insufficient novelty. 2. The crystal structure has been well-established already. 3. Although the text is written in good English, the overall treatment of the manuscript is a simple catalogue of macroscopic measurements 4. It is my assessment that the author has not provided any interesting information. Basically, the paper is providing simply data which is not sufficient for the	Now include one more study and also calculate the optical band gap. Its novelty of the paper and given more scientific information in dielectric studies. English rewritten in good English
