<u>Optional/General</u> comments	The Paper "Petrophysics of the B-Reservoir in Eyram Field, Onshore Niger Delta" focuses on evaluation of Eyram field reservoir for determination and distribution of petrophysical properties, fluid type and hydrocarbon contact within B-Horizon using log data. The paper offers a lot of figures and equation to illustrate the petrophysical properties including porosity, permeability, water saturation, etc. All the figures and data are valuable and original. The paper is well written and can be published without revision.	Thank you.
