SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	This is an interesting and quite well written paper. I believe it should be of interest to the readers of the British Journal of Applied Science & Technology. There are 2 suggestions for revision 1. The references should be update after 2010. 2. The manuscript format should be followed by he British Journal of Applied Science & Technology.	I agree with the observations made by the reviewer. References have been reviewed and updated as much as possible without losing the substance and flavour of the paper. The paper has been reviewed in line with SDI format. All corrections or adjustment made to the paper have been highlighted in yellow colour.
