SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	**MS: 2012/BJAST/1901**
Title of the Manuscript:	**PHOTOCATALYTIC DETOXIFICATION OF CHLOROBENZENE IN AQUEOUS SOLUTIONS**

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	**Authors' response to final evaluator's comments**
This version of the manuscript is substantially better than the original was., especially from the viewpoint of the scientific content and of its presentation. It needs, however, some corrections in the composition, grammar, and in the references. General error: mission periods at the end of several sentences, besides missing commas in some cases. At the beginning of the 4th paragraph on page2: "Among the listed semiconductors." – no semiconductors are listed before that part! There are several misprints, e.g. under 2.2.1.: Bruunauer (instead of Brunauer), under Fig 3.4: ..absorption of organic substrate.. (instead of adsorption ....), or in Ref. 19 correctly: Pelizetti, Borgarello, Serpone – in Ref. 31: Türk (the names in References ought to be checked!)	**1. The paper had proofread and appropriate corrections made as noted** **2. The statement of the 4th paragraph on page 2 had been changed to "**Among the common semiconductors in use" **3. "Bruunauer" had been corrected as "Brunauer"** **4. "Absorption" corrected as "adsorption" and errors in names in the references had been properly cross checked and corrected**
