SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	(1) Introduction is weak with poor justification. (2) Literature review is also weak. Please improve it and citation relation paper. (3) Conclusion is too easy writing. Please improve it. Please check carefully to assure the format (about Table, Figure, and Text) meets the requirement of BJAST. All the references cited should be presented in the reference list and vice versa.	I thank the reviewer for spending their valuable time in reviewing this paper and giving suggestions to this paper. The comments are highly taken into consideration and necessary steps had been taken. (1)Introduction in page 1 is strengthened with appropriate citations. (2)Literature review is modified and important citations included. Also literature review which was given as separate section in page 2 initially is now combined with the Introduction. (3)Conclusion in page 9 is written strongly and work related to this is also mentioned. Thank you.
<u>Minor</u> REVISION comments		Not mentioned separately
<u>Optional/General</u> comments		I am able to view only part 1, 2 and 8.
