

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2013_BJAST_5131
Title of the Manuscript:	OUTAGE ANALYSIS OF A MULTI-USER SPATIAL DIVERSITY SYSTEM IN A SHADOW-FADE PROPAGATING CHANNEL

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1- When you mention the MATLAB environment for simulation purpose, please provide more details about the specific package adopted. As you said "We used a Shadow-Fade environment and Rayleigh channel for this purpose". 2- Some odd characters (empty squares) appear inside the formulas. This problem seems to be related to your Microsoft Word version. Please fix this before sending the final version. 3- Please, describe in the paper examples of standard wireless communications texts containing these parameters and include them as references. After these revisions the paper should be accepted.	1- More info on shadow fade environment and simulations are added (please see page 2 first paragraph and 3rd page). Also, a reference is added. 2- The symbols in square shape are fixed 3- The first reference is the standard textbook for wireless communications. There, you may find all symbols and definitions of wireless.
