PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors have improved the manuscript regarding to the first version. Nevertheless, there are still many errors in the manuscript. I tried to correct many of them (please see the manuscript attached) but probably, there will be more. In the answers to my first revision authors said as only response "The paper has been corrected grammatically, statistical analysis now properly put in place and order" but this is not true. As example, in the first review I wrote "Besides, in Table 3 (Sensory) letters do not correspond with the means. As example, Taste: 6.0 (a), 6.15 (b), 6.6 (c) and 7.55 (d) Ok, but 6.95 (e) and 6.4 (f)???" and this remains exactly the same. I ask the authors to carefully read an correct the paper.	Thanks for your observation. I have carefully gone through the identified errors and have done the correction.
