

I have revised the ms according to comments.

- H1 - "On" has been corrected to "on"
- H2 - "kimberlite" has been corrected to "kimberlitic"
- H3 - the long sentence line 22-28 is separated by semi colon, which brakes the sentence into different parts.
- H5 - "grenschist" has been corrected to "Green schist"
- H6 - "a" has been corrected to "A"
- H7 - "uncomformable" has been corrected to "unconformable"
- H9 - "proterozoic" has been corrected to "Proterozoic"
- H10 - "pan-african" has been corrected to "Pan-African"
- H11 - "archean" has been corrected to "Archean"
- H12 - the term "quartzo-feldsparthic" has been left unchanged as it is deemed correct in geology
- H14 - "And" has been corrected to "in addition"
- H15 - "orogenic" has been corrected to "Orogenic"
- H16 - "cambrian" has been corrected to "Cambrian"
- H17 - comma has been introduced after the word "thus"
- H18 - the "i.e" has been corrected
- H20 - the long sentence has been broken into 2 separate sentences
- H22 - "smallscale" has been corrected to "small-scale"
- H23 - the term "prsopectivity" has been left unchanged because it is correct as a mining & exploration term
- H24 - the comment is not understood
- H25 - "geology" has been corrected to "Geology"
- H26 - "paleozoic" has been corrected to "Paleozoic"
