SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment; The article in generally are with scientific values , but we have some suggestion about these : 1- In title we think that will be better to change not “in nine” but should be “in some”. 2- Abstract: at values for example “ mg/g, should be” mg g⁻¹ “ 3- Introduction – should be add and some references about same fields. 4- Materials and methods:- Must be in latin name “ example “ (<i>Carica papaya</i> L.) but not “ Carica papya: Also, at these section its not describe the statistical methods, what’ s statistical package was used. Also, we think that article to be more scientific should be add table for correlation traits which was include in study, and results to comment by Duncan’s range test.	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No
