

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">British Journal of Applied Science &amp; Technology</a>
Manuscript Number:	2013_BJAST_6102
Title of the Manuscript:	KNOWLEDGE OF SEXUALLY TRANSMITTED INFECTIONS (STIs) INCLUDING HIV/AIDS AMONG UNIVERSITY STUDENTS

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Still most of my comment is inside the manuscripts. Please check the flow ideas, remove repetition of ideas. <b>Introduction:</b> They tried to merge introduction with statement of problem with out merging ideas. Please look at it and merged to less than one page <b>Material and methods:</b> They corrected according to my comments but still there some problems. I put my comments with track change on the new version of manuscripts.</p> <p><b>Result and discussion:</b> generally they corrected this part. But still with repetitions of ideas. Even it is not well discussed and justified by comparing with other similar studies( similar, low , high finding from studies conducted on university students ,not with refuges <b>Conclusion:</b> write only summary of your major finding. Your recommendation must be from your results not from your perception</p>	

**Reviewer Details:**

Name:	Zelalem Teklemariam
Department, University & Country	Medical Laboratory Sciences, Haramay University, Ethiopia
