

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2013_BJAST_6102
Title of the Manuscript:	KNOWLEDGE OF SEXUALLY TRANSMITTED INFECTIONS (STIs) INCLUDING HIV/AIDS AMONG UNIVERSITY STUDENTS

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ul style="list-style-type: none"> - You were corrected most of my comments, but your general objective to assess the level of awareness about STIs, but on your result part it told about Knowledge. Is it possible to change knowledge in your finding to awareness which can make uniform? - Still now all tables and figures are not explanatory, they did not answer what? what ? where? When? Who participants? (please look at any similar journals or read how to write the title of tables and figures) - please look at the completeness and make short too long sentences - look at and correct some comments I put as track of change -
