**PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                                                                                                                                                                                            | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                     |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                   |
| <b><u>Minor</u></b> REVISION comments      | <ol style="list-style-type: none"> <li>1. The Latin name of yam in some part of the MS was not written by Italic font,</li> <li>2. No need to write the SD within the text in the results part, only the mean.</li> <li>3. The author (s) cited a lot of references (72), it will be better to reduce the number .</li> </ol> | <ol style="list-style-type: none"> <li>1. I agree with comments</li> <li>2. I have reduced the number of references to 49</li> </ol>                                                              |
| <b><u>Optional/General</u></b> comments    | <ol style="list-style-type: none"> <li>1. To complete the full picture of the functional properties, the author (s) need to determine the protein solubility index.</li> </ol>                                                                                                                                                | Thank you for your very helpful comments.
