

SDI Review Form 1.6

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2014_BJAST_12199
Title of the Manuscript:	EFFECTS OF THE INGESTION OF MICROWAVED FOOD ITEMS ON SOME HAEMATOLOGICAL PARAMETERS IN ALBINO WISTAR RATS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Please describe the statistical analysis of the data.	Tests of significance were performed on the two sample means, one from each group, on the same type of count using the two-tailed student's t-distribution at 5% significance level and 18 degree of freedom (v).
<u>Minor</u> REVISION comments	Line 84, Please give the age of the albino waster rats. Line87-88, Could the authors provide the components of the microwaved food items and unmicrowaved food items? It will be better. Line 107: Hb Conc. should be expressed as Hb concentration.	These changes have been effected as suggested.
<u>Optional/General</u> comments	The research shows that the ingestion of microwaved food items has important influences on some haematological parameters including RBC, WBC etc. Given the popularity of microwaved food in modern society, this research is particularly interesting and instructive to us. Therefore I suggest the publication of this MS on our journal.
