PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	- Some short words have not be annotated as full name, just like "LSD, dS m-1 or other units of measurement" in full text of manuscript, it had better have list a abbreviation. - In Table 1 (line 120), the units of stomatal conductance "$\text{mmol m}^{-2} \text{s}^{-1}$", font size is smaller than other units, this should be full unification. - In Figure 1 (line 144), the sizes of coordinate titles are too smaller to see clearly, please change the font size and resolution. The same incongruous cases also occur in Figure 2 (line 181) and Figure 3 (line 186). - In Figure 6, "A indicated KFS4 and B indicated Speedfeed" shown in line 219, hence the words of KFS4 or Speedfeed should be replaced by A or B in your combination picture.	- Abbreviation were added at the end of manuscript - The font and size of some words and figures corrected - The font and size of some words and figures corrected - The font and size of some words and figures corrected
