

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2014_BJAST_11844
Title of the Manuscript:	INSTITUTIONAL APPROACH TO FLOOD DISASTER MANAGEMENT IN NIGERIA: NEED FOR A PREPARDNESS PLAN

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Agreed and happy with the revisions done by the author. I don't know the comments of other reviewers, but after these changes the manuscript has a fair objective now. This study provides guidelines about the weakness and the strength of any system related with DRR.	We appreciate the contributions of this reviewer. Additional information obtained through the assistance of the president of the Nigerian Association of Hydrological Sciences (NAHS), Prof. C.C. Mbajorgu; the Nigerian Hydrological Services Agency (NHSA) Abuja and from other recent literature have been used to effect additional corrections suggested by other reviewers. The quality of the paper has, therefore, improved further. Those new references were dully acknowledged
