

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	BritishJournalofAppliedScience&Technology
Manuscript Number:	2014_BJAST_12532
Title of the Manuscript:	PRODUCTION AND CHARACTERIZATION OF ALUMINOSILICATE REFRACTORY BRICK USING UNWANA BEACH SILICA SAND, EKEBEDI AND UNWANA CLAYS
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
- All the tables and figures should be cited in the sections Results and Discussion. Figures (1-4) are not referred to Results sequentially. It starts with Fig.5 in Discussion. So, Figs. (5-9) are referred to in Discussion. Figs(2-5) are referred to in Discussion, but this is not in the right order (Fig.1 should be referred to initially). Tables (5-7) are referred to in Discussion. However, those tables do not exist. - Section "Results and Discussion" should be changed as "Results" since there is an additional section "Discussion". The authors seem to me disorganised for a scientific paper. In my previous report, I pointed out that all the tables and figures should be given sequentially. This problem still appears in this revised version.	All necessary tables have been cited. Fig. 1 needs not to be cited in Discussion because its just the photo graph of the product. The Fig.5 that is Total Shrinkage is the same as Linear Shrinkage which entails Drying Shrinkage (fig.3) and Firing Shrinkage (fig.4), this indicates that the results of figs. 3 and 4 are embeded in Fig. 5. All the figures were referred to sequentially. The tables (5-7) referred to in Discussion was supposed to be tables (2 and 3), it was an error and it has been corrected. Correction has been made on the Section " Results and Discussion" stated. All the figures and tables were given sequentially and there is no confusion.
