PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
While authors appropriately addressed this reviewer's comments, the text still has typos and English incorrect grammar which has to be corrected; The following represents some but not all examples of incorrect text: Line 34; This notwithstanding, the world demand for paper and paper Line 39: be sourced from recovered paper [4]. Though this my be seen as logical, it has been Lines 96-97: Based on screened yields and their corresponding kappa numbers, only pulps obtained at 150 °C cooking temperature was used for bleaching and refining experiments.	The Authors acknowledged regretted the typos and incorrect grammars pointed out by the evaluator. The whole text had been carefully reviewed in www.grammarly.com and several typos and grammar errors detected were corrected. The corrections were highlighted yellow in the text. Thanks for the thorough review.
