PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
You did some tremendous work on the conclusion. I wish you could do the same on the abstract. This time around can you make your work flow so that readers can be able to follow your ideas. Most of your statements are abstracts: They all start with THE??? I have highlighted some major corrections which you can correct. The figures should be numbered continuously avoid. Remove the letters; it's a single document. Revise your numbering on the figures	I appreciate your comments and corrections; it will further improve the quality of the final manuscript. Efforts have been made to follow the instructions as outlined in the corrected version of the manuscript (see attachments). I hope this will be the last time I'm making correction or adjustment on this manuscript.
