Subject: RE: Request for final decision for manuscript number 2013/BJAST/7727

The paper DUALISMS AND SYMMETRIES IN PHYSICAL EXERGY PROPERTY AND GENERALIZED FORMULATION RELATED TO THE CARNOT AND JOULE CYCLES by Pierfrancesco Palazzo is of high quality and I accept its present form. I congratulate the author.

However, I found four minor amendments that require correction:

1. Please consider the title change for DUALISM AND SYMMETRY AS PHYSICAL EXERGY PROPERTIES AND GENERALIZED FORMULATION RELATED TO THE CARNOT AND JOULE CYCLES.

This is only my suggestion for the author. I do not insist on the change however. I just feel my proposition is more precise. The author has to decide.

2. Line 194. The symbol T should be written a bit lower.

3. Line 295. "generally validity" should be changed for "generally valid".

4. Eq. (28). Though the meaning of "CONVER" and "TRANSF" can be guessed I would expect a verbal reference to two work and heat components below the equation.
