SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This manuscript, In its current form, the level of English throughout your manuscript did not meet the journal's desired standard. There are a number of grammatical errors and instances of badly worded/constructed sentences. Please check the manuscript and refine the language carefully. Please summarize and report on Table the method used to analyzed the physico-chemical parameters: electrical conductivity (EC), pH, total dissolved solids (TDS), major cations(K^+, Na^+, Mg^{2+}, Ca^{2+}), and anions (SO_4^{3-}, Cl^-, CO_3, HCO_3 used in this study. The methodology used in this study did not provide any useful information on the quality assurance and quality control (QA/QC) of the data used in this study. The authors have to tune it up, especially on the methodology, significance of the study, and the discussion of the results.	
Minor REVISION comments		
Optional/General comments
