

SDI Review Form 1.6

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2014_BJAST_11480
Title of the Manuscript:	A real-time Oil Pipeline Anti-Intrusion System Using Acoustic Sensors
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. Author should proofread the manuscript to correct some typos. 2. Figure 1 should be replaced by a clearer image. 3. The 240ms frame time mark on Figure 6 should start from the second 80ms mark above which corresponds to the delay time of Slave Module 1	
<u>Optional/General</u> comments	The authors have elaborated the design of a novel pipeline intrusion detection system using acoustic sensors. This is a detailed and overall technically sound paper. Just some minor things written above should be addressed.
