SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Misleading introduction; it should align with abstract. Spell out all acronyms the first time. What about INPUTTING data? GIGO issue is big. Explain why data warehouse is the most valuable tech (citation is general; author needs to explain own community). Writing has much jargon (especially around lines 88-110); clarify terms, especially cube. What is the basis for data elimination (line 113)? Explain OLAP (e.g., 122), especially in terms of fee (what is that about??). It is unclear the priority issue: money, target populations, etc. Where did 80% come in? (line 162)	Acronyms have been spelled out Introduction has been revised Added citation to show why data warehousing is valuable Jargon has been explained e.g. data mart, cube, OLAP Reference to 80% has been removed
<u>Minor</u> REVISION comments	Ms should be MS. Staff usually refers to clerks; define staff.	Ms has been replaced with MS Staff has been replaced by employees
<u>Optional/General</u> comments	Proofread for grammar/syntax errors. Poorly organized, with poor transition of topics	Revision and reorganization has been done
