

### SDI Review Form 1.6

|                          |                                                                                                                                    |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">British Journal of Applied Science &amp; Technology</a>                                                                |
| Manuscript Number:       | 2015_BJAST_16811                                                                                                                   |
| Title of the Manuscript: | Synthesis, characterization and in vitro cyto toxicity assessment of eggshell-derived $\beta$ -CaSiO <sub>3</sub> nano biomaterial |
| Type of the Article      |                                                                                                                                    |

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

### **PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                        | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | The paper can be published in its current form. It is a good paper, well written and documented. The nonmaterial is fully characterized. The novelty of the paper can be also considered. | Thanks                                                                                                                                                                        |
| <b>Minor</b> REVISION comments      |                                                                                                                                                                                           |                                                                                                                                                                               |
| <b>Optional/General</b> comments    |                                                                                                                                                                                           |                                                                                                                                                                               |
