

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2015_BJAST_17091
Title of the Manuscript:	The Engineering of an Undergraduate Nuclear Education Program in Jordan
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
What is NE in table 2 ? L 133: what are vpn terminals ? Figure 2 is not quoted in the text I made some modifications in green in the manuscript. The approach described in the article is interesting. The link between the governmental desire to develop a nuclear program and the obligation to set up a course to meet the need appears clearly.	1. The following clarification was added to the Table *NE Cr. Hrs.: The number of nuclear engineering credit hours taught by the nuclear engineering department each academic year 2. Virtual Private Network (VPN). This allows the student to connect to the cluster and use its resources, with his personal computer from any place. 3. The following sentence was added: The control room of the subcritical reactor is made to resemble that of a nuclear reactor control room, as to familiarize students and trainees with reactor control environment and setting, as shown in Figure 2 [12]. 4. Thank you for the modifications in the manuscript, they were all added in the same format to the manuscript, except the one regarding Figure 2, which was modified as in #3 above.
