Make it one paragraph • Figure 1 is unclear, it should be maximized to clarify its details • Line 69 Ammonia is NH₃ and not HN₃ • Editing regarding Tables (2,3,4) must be done • Some cells in Tables (e.g. 6) is empty, they should be identified and defined	• Sub-title removed from abstract but standard structure retained • Figure 1 now enlarged • Abbreviation of Ammonia corrected • Editing of Table 2,3 and 4 have been done • Tables with missing cell are present because they represent parameters (eg temperature DO, and %O₂ and coliform count) that did not contribute to the classification of the study area and hence statistic were not expressed.
