PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The paper is interesting and experimental data seems to be favourable. There is need of a review in all the manuscript as some sentences are not clear enough or even written in an inappropriate manner. Ethical issues-: In general, sensory analysis involves ethics committee and in the present paper the authors did not mention anything about that concern.	We have corrected the wrong sentence found in the manuscript. The authors are aware of the health and safety of the assessors. All reagent used are safe and the assessors were regular consumer of cassava products.
<u>Optional/General</u> comments
