

SDI Review Form 1.6

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2015_BJAST_18590
Title of the Manuscript:	Solutions of Sequential Conformable Fractional Differential Equations around an Ordinary Point and Conformable Fractional Hermite Differential Equation
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The topic addressed is motivating, however, I would like to ask authors to compare their work with Journal of Function Spaces Volume 2015 (2015), Article ID 706383, 6 pages and Electronic Journal of Differential Equations, Vol. 2015 (2015), No. 29, pp. 1-10.	We have also cited the mentioned articles in the manuscript. Our study is different from these studies with its relation to fractional power series solution and in contrast mentioned studies was related to Boundary Value Problems for Conformable Fractional Differential Equation. So it is difficult to compare our study with these studies.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
