

SDI Review Form 1.6

Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	2015_BJAST_18590
Title of the Manuscript:	Solutions of Sequential Conformable Fractional Differential Equations around an Ordinary Point and Conformable Fractional Hermite Differential Equation
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	(1) There are some problems with language and sayings to be improved. (2) References should be revised and rewritten in the same style, Such as Ref 4: " And" should be "and"; it is "pp. 65-70" (3) There are also some misprints need to be revised, for examples, there exiss a blank between "order" and "2a" (page 2); "found" should be "founded"(page 7) and other places. (4) Some recent references on fractional differential equations are not considered, such as [1, ,2, 3,4], please include them. [1] Z. N.
